SPECIFICATIONS

ENGINE

Engine Type	3-cylinder, liquid-cooled, 4-stroke, DOHC, 4-valves
Displacement	847 cm ³
Bore X Stroke	78.0 mm x 59.1 mm
Compression Ratio	11.5 : 1
Maximum Power	84.6 kW (115PS) @ 10,000 rpm
Maximum Torque	87.5 Nm (8.9 kg-m) @ 8,500 rpm
Lubrication System	Wet sump
Clutch Type	Wet, Multiple Disc
Fuel System	Fuel Injection
Ignition System	TCI
Starter System	Electric
Transmission System	Constant Mesh, 6-speed
Final Transmission	Chain

CHASSIS

Frame	Diamond
Front Suspension System	Telescopic Forks
Front Travel	137 mm
Caster Angle	24°
Trail	100 mm
Rear Suspension System	Swingarm, (Link Type Suspension)
Rear Travel	130 mm
Front Brake	Hydraulic Dual Disc, Ø 298 mm
Rear Brake	Hydraulic Single Disc, Ø 245 mm
Front Tyre	120/70ZR17 M/C (88W) (Tubeless)
Rear Tyre	180/55ZR17 M/C (73W) (Tubeless)

DIMENSIONS

Overall Length	2,160 mm
Overall Width	950 mm
Overall Height	1,345 mm max 1,375mm
Seat Height	845 mm max 860mm
Wheel Base	1,440 mm
Minimum Ground Clearance	135 mm
Wet Weight (Including Full Oil And Fuel Tank)	210 kg
Fuel Tank Capacity	18 L
Oil Tank Capacity	3.4 L

MT-09 TRACER

TURN UP YOUR EMOTIONS

More than anything, the MT-09 Tracer is about discovering the meaning of freedom. It's your life, and what you do next is down to you. You want the ability to get up and go whenever you feel like it - and this versatile Sport Touring bike is ready to make things happen! Its torque rich, 3-cylinder engine and lightweight aluminium chassis are built to thrill - while an upright riding position, 18-litre tank and sport cowl make long distances easy. With outstanding performance and the ability to excite and inspire you wherever you go, this Sport Tourer gives you an instant escape route from the daily routine. So choose freedom. And turn up your emotions with the MT-09 Tracer.

ADVANCED ELECTRONIC CONTROLS

For effective operation in different conditions, you can select any one of the three D-MODE running modes. The 3-mode Traction Control System (TCS) gives added confidence on slippery surfaces, while the ABS prevents accidental wheel lock up when braking. And with the wiring already in place, it's easy to fit an optional Quick Shifter System.

AERODYNAMIC SPORTS COWLING WITH LED HEADLIGHTS

For increased rider and passenger comfort the MT-09 Tracer is equipped with an aerodynamic cowling that gives this Sport Tourer an edgy and aggressive image. Featuring dual LED headlights and a 3-step-adjustable screen, this wind-beating bodywork underlines the Tracer's genuine long distance potential.

ASSIST AND SLIPPER (A&S) CLUTCH

For smoother downshifting when entering a bend, the latest model features an Assist and Slipper (A&S) clutch. By helping to eliminate any sudden shocks to the transmission caused by the downshifting process, the A&S clutch helps to maintain chassis stability and poise to give a higher level of controllability.

LIGHTWEIGHT CF DIE-CAST ALUMINIUM FRAME

A key ingredient in MT-09 Tracer's success is the use of a lightweight and compact CF aluminium die-cast frame whose excellent balance of rigidity contributes towards this Sport Tourer's agile and responsive handling character. Solo or two-up, highway or back road, the Tracer is built to respond instantly and accurately to rider inputs.

ASYMMETRIC CF DIE-CAST SWINGARM

The MT-09 Tracer's asymmetric CF die-cast swingarm gives a low unsprung weight for responsive suspension action and a comfortable ride for both rider and passenger. An almost horizontal rear shock is situated beneath the seat, while the externally mounted swingarm pivots keep the centre section of the chassis slim for a relaxed riding position.

COMPACT AND LIGHTWEIGHT 850CC 3-CYLINDER ENGINE

At the heart of the MT-09 Tracer is an 850cc 3-cylinder engine that generates deep, linear torque and strong high rpm power. Equipped with forged pistons and offset cylinders, this compact and lightweight engine is ready to bring the passion and emotion back to your two-wheeled riding experience.
